## From the MD & CEO's desk

**"We will continue to evolve ourselves to optimally integrate with the dynamic needs of our valued customers and maximise our reach to serve every viable geography in the country in pursuit of our stated mission."**

### *Dear friends,*

Encouraging self-dependence is more meaningful than simple charity.

For that is about enabling her to envision her dreams. It is about empowering her to build capabilities. It's about expanding her sense of achievement and self-respect. It's about making her feel important to the family, the village, and the nation.

Hence, Fusion was born with this mindset of making the Indian woman self-dependent.

Sticking zealously to this philosophy has brought us healthy returns in each year of our journey thus far. And 2018-19 was no exception to this trend.

Our disbursements climbed by 66.54%, revenue increased by 91.40%, and we registered a net profit of ₹65.35 crore against a net loss of ₹39.41 crore in 2017-18.

In addition to the stupendous growth we achieved, 2018-19 holds special significance in my mind. It stands as a year when the efforts of the entire Fusion team received heart-warming recognition.

1) We received an Award for Customer Literacy and Capacity Building at the country's first MFIN Microfinance Awards 2018 – In Pursuit of Excellence. This award is special as it recognises the efforts of the team in going beyond

funding. It showcases the teams' dedicated perseverance in uplifting fellow Indians hitherto overlooked. It reflects on our passion for making a meaningful difference to India and every Indian.

2) Our unflinching focus on becoming an 'Employer of Choice' led us to implement important 'people oriented initiatives'. In doing so, we upped our performance in the Employee Satisfaction Survey conducted by Aeon Hewitt, we reached 78% from 69% in the previous survey. In doing so, we graduated to the Topmost Quartile, which makes us eligible for featuring in the 'Best Places to Work' list. This position highlights that we have created

an invigorating workplace that builds people and their personality – it inspires them to contribute positively every day at work. It also vindicates my belief that investing in your people is the best investment. For satisfied people will take care of your customers and your business growth.

3) We received an investment of ₹520 crore (US\$ 75 million) led by the PE major Warburg Pincus, a leading global investor. It was their first investment in the microfinance sector globally and the second investment by them in India's financial services space in 2018. Moreover, it is the largest investment by any single global investor in India's microfinance space. Our existing investor, Creations Investment, has also participated in this round. This investment, I am confident, would support our endeavour to develop Fusion into one of India's most preferred companies in the financial inclusion space.

Financial inclusion continues to provide high growth opportunities in India. Even today, about 216.5 million people in rural areas are poor, while 52.8 million Indians residing in urban areas are considered poor. This means out of the country's total population; 269 million people survive on ₹27-30 a day.

It is a huge opportunity. Moreover, it's a two-fold one.

**One**, the sheer size of the rural masses will make growth a natural outcome for dynamic & progressive enterprises.

To manage growing volumes accurately and with speed, we are strengthening our digital backbone. We successfully launched our mobile app, mShakti. This unique solution has significantly improved customer on-boarding, in addition to doing a host of other things. Even as I ink this statement, we would be close to achieving 100% client on-boarding through this application.

**Two**, rural India has multiple needs and dreams which have drawn scant attention from the financial inclusion sector. It's time we look upon those areas too. They are looking to reduce

their dependence on the vagaries of agriculture. They are getting aware of other avenues of revenue. They aspire for a better tomorrow.

As a step towards readying the organisation for the anticipated volumes, we continued to invest in technology solutions. These solution will enable the team to dedicate a more significant proportion of their time to value-added work rather than being stuck with mundane day-to-day transactions.

Moreover, we are working on developing in-house technology solutions for other critical business functions such as Internal Audit and Learning & Development framework, among others. We will also leverage Data Analytic tools for improving the hygiene of our portfolio and learning more about our customers to serve them better.

I believe that Fusion, with its network of branches across 18 states & a well-entrenched work force network, is perfectly positioned to serve our existing and prospective customers with a seamless approach' to deliver our current and future range of financial services to their doorstep. The solid platform built over the last 10 years can be leveraged as a pivot for building adjacent business verticals to meet the diverse requirements.

Our priorities for the current year include:

- Intensifying our efforts on educating and training customers on the nuances and benefits of digitisation – not only for loans and their repayment but on a holistic basis
- Continuing to focus on making our services affordable for our rural customers, which will enhance their business returns and their sense of satisfaction.
- Scouting for more ways of making a positive impact on underprivileged Indians.

To that end, we will continually shape the Company, strategically choose

product opportunities emerging out of our core area of excellence, and geographies in which we are present, to achieve the optimal configuration for success.

As we move forward into 2019-20, I would like to express my sincere gratitude to my fellow Board Members for their commitment and professionalism in paving Fusion's long-term path. Thanks to our shareholders, other stakeholders who continue to align with our growth and our lenders who continue to repose faith in our capabilities and the business model.

I wish to also take this opportunity to thank our team members for their invaluable support and contribution for the Company's success.

At Fusion, we continue to remain honest and humble to our stakeholders and will remain forever hungry for growth that is meaningful and sustainable.

Warm regards

**Devesh Sachdev**  
MD & CEO

Fusion has demonstrated the ability to profitably scale up in a diversified manner. The Company has a robust operating platform and is very well capitalised to become a leader in the financial inclusion space.

Rural Indian women have simple dreams about a better life – to educate their children, to provide clean water and nutritious food for their families. But they scarcely know how to get there.

Because they remain bogged down with the anxiety of providing for every day. Because despite having the longest working day, every day, they scarcely have a minute to ponder about better prospects. Because the word 'opportunity' does not exist in their village and hence in their mind.

At Fusion, we made poverty eradication, in the poorest districts, an essential part of our business model.

Even when urban slums were the easier option, we reached out to the poorest and backward districts of India. We provided them a ray of hope. We allowed them to dream of a better today, a brighter tomorrow and a promising future.

And this is what we did!

Before we brought our ideas, we built trust. Before we funded, we introduced opportune avenues for fund deployment. Before we launched our financial inclusion project, we opened their eyes to their economic inclusion prospects.

The bottom line is ... we enabled them to dream of living the life they had always dreamt of.

## CASE IN POINT

We launched 'Jivika' –a comprehensive business development program that provides intensive training in skills such as paper bag making, sewing & cutting, and pickle & papad making, along with training on product-packaging and enhancing their knowledge on selling the products in the right market. Over the last eight years, a large part of our customer base has undergone this training, which enabled them to envision better days.

### This is what happened!

I had taken a loan from Fusion to start a garment shop. However, the lack of relevant skills reduced my work to basic alteration jobs. As a result, the meagre earnings were enough to meet the EMIs and save a paltry amount. I was disappointed.

One day, Fusion's Branch Manager attended one Centre Meeting. He informed us that the Company is initiating tailoring classes under its skill-building program. My eyes brightened. I felt my dreams would soon see the light of day.

I immediately enrolled in the program. It was well-organised. The Company provided us with raw materials and others. We learned different types of garment stitching. The Company also organised a market survey during which we interacted with shop owners. It provided insights into customer trends and preferences, products in vogue, and reasonable prices. With this experience, I have grown my business. I have also started teaching tailoring to two girls in the neighbourhood.

Women are more enterprising than men. But the word 'udhaar' (loan) and 'byaj' (interest) are their biggest stumbling blocks.

Their fears are not unfounded. Because petty money lenders have abused their trust in furthering their personal interests. Horrifying stories of villagers losing their all to local money lenders are rife.

“...there is a sublime joy in seeing these humble women achieve their little dreams – it’s this satisfaction that inspires us get to work every morning!”

*Tarun Mehndiratta,  
Chief Operating Officer*

At Fusion, we envisioned a holistic financial inclusion, as our commitment to society.

We realised that only providing money would push our customers further into the quagmire of despair.

So, this is what we did.

**First**, we understood their business venture, analysed the returns, and funded them accordingly – because we firmly believe that over-leveraging accentuates misery.

**Second**, we advised them on making and managing budgets and expenses – ensuring that they have real money saved at the end of each day.

**Third**, we aligned them with new-age trends. We conducted digital financial literacy programs within the perimeter of villages. We also provided them with the tools like smartphones for implementing theory into practice.

Our efforts empowered rural Indian women not only gain respect and position in their family and society but also inspired them to go beyond.

## CASE IN POINT

I have been associated with Fusion for five years now.

When I look back, I realise I have come a long way from where I started. I was unemployed, my husband was working, but he earned very little.

I took my first loan from Fusion to start a small business of making cricket balls along with my husband. We bought raw material and started at a modest level. I maintained my repayment on time and kept taking loans from Fusion, which further helped me scale up the business.

It took some time, but gradually, our income and quality of life improved. My three children are continuing their education. We have also bought a television, a refrigerator, and a motorcycle. Now, I participate equally in the decision making of the family, which has established my reputation in the household.

I have given employment to four women from the community as well. I feel happy to be able to provide for my family, and I am thankful to Fusion for its support without which it wouldn't have been possible.

### Providing Shakti to our field force

We empowered our Field Officers with the power of mShakti, a mobile app, which allowed them to instantly check the creditworthiness of applicants which earlier took one day. It reduced the Turn-around time (TAT) between document submission and fund disbursement by about 16%. Also, this app updated cash collection details to the customer and the branch office in real time. Our empowered team handled 146,407 applications more than it did in the previous year.

...AND  
EXPANDING  
THEIR  
ASPIRATIONS!

TO MAKE A LIFE  
MORE MEANINGFUL  
TO THE FAMILY  
AND THE  
COMMUNITY!

Success breeds more success. Especially for those who have, hitherto, been looked down upon by family, and society. For it's their way of telling their world that they are equally capable.

Moreover, their success can be contagious. For it would kindle hope in the minds of others – within the family, within the society, within the village – to leverage this holistic support.

**“We succeed when we lower their cost. We sustain when we emerge more liquid.”**

***Gaurav Maheshwari,  
Chief Financial Officer***

At Fusion, we are readying ourselves for this reality.

For as we became increasingly integrated with rural lives, we realised that there are multiple ways in which we could support the upliftment not only of rural women but of rural India.

This is what we plan to do.

**First,** We will use advanced analytical tools to study the available data from our geographic footprint to understand the challenges of the rural masses resident in those states.

**Second,** We will utilise this knowledge to create products that address their requirements and align with our core operations and expertise.

In doing so, we hope to enhance our ability to meet the growing aspiration of rural India in a more meaningful manner.

## CASE IN POINT

Sumitra, resides in the Dhampur village, along with her husband and two daughters. Her life, like most other rural women living in Indian villages, was one of great stress and anxiety. Her husband's earnings were never enough to pay for the school fee – hence, her children's education was an abiding nightmare. Finally, the inevitable happened, and they were compelled to withdraw children's names from the school. It was one of the darkest days in their lives. Left with no hope, they slowly started finding terms with the setback.

But, the future belongs to the one who takes the right decision at the right time too, not just the dreamer. It was from one of those routine neighbourhood

conversations that Sumitra for the first time heard the name Fusion Microfinance – the Company giving loans to the villagers. After several days of mind-battle with her convictions and petrifying stories about borrowing, Sumitra took a loan from Fusion to buy a buffalo and started selling milk.

She repaid the loan easier than she could ever imagine, and received the second loan to buy four more buffaloes. Since then, her family has never looked back. Not only did she manage to get her children back in school, but she also bought a bicycle for her husband, living the dream of many women around the world.

At the behest of Fusion, Nielsen conducted an impact study across five states to understand the impact of the financial services provided at the grass root level, primarily in terms of employment creation.

## Snapshot of the findings

- For every two customers intervened by Fusion Microfinance, one job has been created in the economy. A team of 1,081 people were further employed by giving loans to 2,054 customers of Fusion Microfinance either through existing entrepreneurs or through self-employment.
- 40% more business owners created by Fusion Microfinance among its beneficiaries
- 17% of the customers aided their family business after availing loan from Fusion Microfinance.
- Across key markets, Fusion aided entrepreneurship growth by as much as 95% (in M.P. & Haryana). Other states have grown by at least 40% in terms of entrepreneurship post loan disbursement by Fusion Microfinance.
- Monthly household income of its beneficiaries shoots up by a minimum of 51% (Odisha) and up to a maximum of 108% (Haryana) post availing loans.
- Loans from Fusion Microfinance have made 87% of its beneficiaries more financially independent.
- Considerable proportion of people have moved out from low paying jobs to self-sufficient entrepreneurs post availing loan from Fusion Microfinance.
- Fusion Microfinance has also helped about 1/5th of the people to move out of the workforce by helping them to expand the existing businesses of their husband / son /other relatives.
- Madhya Pradesh & Haryana are the states where most impact can be seen both in terms of employment creation & increase in MHI of customers.
- People consider themselves as more financially independent, feel it is easier to work according to their own convenience and have also made an impact on the life of the employees by creating more job opportunities.

## A discussion with the Management team on the Company's performance in 2018-19.

Having come thus far, we have set our sights higher. Our strategy includes growing the business from existing geographies and establishing a stronghold in new territories we entered in 2018-19.

### **Were you happy with the Company's performance in 2018-19?**

It was a great year, which is reflected in the growth numbers. More importantly, we are back in the black with a net profit of ₹65.35 crore in 2018-19 against a loss of ₹39.41 crore in 2017-18 (owing to the provisioning consequent to the demonetisation drive). This growth is heartening for it showcases the robustness and resilience of the business model to navigate through volatility prevailing in the external ecosystem.

### **How did the growth happen?**

We continued to follow our time-tested practice – go deeper even as we expand wider. While we focused on entrenching our presence in states where we operated, we also extended our presence into four new states – Tamil Nadu, Gujarat, Assam, and Rajasthan. Our total disbursements increased to ₹2,782.13 crore in 2018-19 (growth of 66.54% over the previous year), the new states contributed about 18% of our fresh disbursements in 2018-19). We added 147 new branches in 2018-19 the highest branch expansion in our business journey, taking our total branch network to 504 branches as on March 31, 2019. This expansion has created a robust platform calibrated for growth over the coming years.

## Considering the NBFC crisis in India, how did you fund your business growth?

Last year marked crisis in the NBFC sector following some developments in IL&FS. This led to NBFCs facing rather difficult period due to squeezing of lending and also hardening of cost of borrowing.

However, Fusion has remained insulated from this crisis due to following principal factors:-

1. Microfinance sector has a positive ALM.
2. Fusion has a proven track record of highly governed and well managed organisation.
3. Warburg Pincus investment in Fusion was a major validation
4. Rating upgraded from BBB+ to A-
5. Diversified and high quality lenders which continue to support and repose trust.

## How did you take your digitisation commitment forward?

Digitisation has been a key focus area for us last year. There were 3 major aspects of our business wherein we looked at avenues for digitisation : (a) Our operating model where digitisation would help drive productivity and quality (b) Building more robust checks and balances in the system for effective monitoring and remediation (c) Providing a seamless customer interface to enable improvement of wing to wing TAT leading ultimately to better customer satisfaction.

## What areas of business operations are you referring to?

Field force productivity.

Our highly flexible mShakti mobile app provides multiple benefits

- It charts out every field officer's daily route based on his scheduled meetings.
- It allows our field officer to check every proposed customer's creditworthiness instantly.
- It provides instant cash receipts to customers. It updates the cash collection at the branch office in real time.

Besides, there a host of other features that this tool provides. In a nutshell, it connects every field office with the branch office on a real-time basis.

From the customer's standpoint, it reduces the TAT (document collection to disbursement) by about 16%. This is one of the most satisfying digital solutions we launched in 2018-19.

## With the increase in volumes, how do you maintain the quality of assets?

That is a very relevant point. At Fusion, we have engrained the culture of 'Quality at all cost' into the mind of every team member. This no-compromise culture has helped us in achieving a 1.41% GNPA as on March 31, 2019 (it was 3.98% as on March 31, 2018).

We have taken significant initiatives to strengthen the Company's quality fabric. One, we have readied our systems for allowing a multi-bureau checking for all customers. Two, we are automating our audit systems and processes by launching a mobile app. This will provide the audit trail of every officer and generate system-based reports of branch audits. Moreover, this solution will provide a dashboard for all queries across branches and their resolution – facilitating disciplined monitoring. This module is expected to go live in the first quarter of 2019-20.

In addition, we are working on a risk matrix solution and data analytics solutions that will provide deep insights about the Company's loan portfolio (region-wise, district-wise, branch-wise and customer-wise) across various parameters, throw up alerts for probable delinquencies, and facilitate in studying customer behaviour. We expect to launch this solution in the current year.

## What are the team's plans for the current year?

- 1) **Building on our growth momentum:** We will continue to mine opportunities from existing geographies even as we work to establish a stronghold in new states we entered in 2018-19.
- 2) **Process improvement:** We will leverage technology solutions that will enhance our business process efficiency and improve the organisation's capability in handling additional volumes by implementing lean methodology and scale up in a disciplined manner.
- 3) **Securing funds:** We will also enhance our fundraising efforts a few notches higher to ensure business liquidity even as we work to strengthen organisational solidity.
- 4) **People engagement:** We will work around building people capability, enhancing their skills, for our people are and will be the reason of our success and sustainability.
- 5) **Customer engagement:** We will enhance our customer engagement efforts to get a ground level understanding of where we stand, how we can improve and what more we can do for them.
- 6) **Building customised solutions:** We will work on developing new products that complement our core business philosophy.

# The microfinance sector is not that micro, after all.

## What is microfinance?

Microfinance is a prevalent term in today's financial market scenario. Microfinance refers to a banking or financial service that is offered by banks or other financial institutions to individuals who belong to the low-income or underprivileged sections of the society. Microfinance can be in the form of loans, insurance, and savings deposits.

Microfinancing is a great way to help poor individuals to be financially independent. Many of the underprivileged people in the nation do not have any idea about saving money or managing their finances. When they acquire microfinance from a reliable institution, they will get exposure to managing money on their own and also about sensibly utilising funds.

Over the last decade, microfinance has made a meaningful contribution to India's goal of financial inclusion of the poor and underprivileged. In more recent times, the microfinance sector

has increasingly leveraged technology for delivering services to the rural masses – this has made a meaningful difference in uplifting the technology prowess of rural India.

# Rural women are falling out of India's workforce at faster rates than urban women

The number of women working in rural India is declining at a faster pace than that among women in the urban workforce, according to an IndiaSpend analysis of government data.

Sustained high economic growth since the early 1990s has led to improved education and health indicators among India's women. Women accounted for no more than 25% of the labour force in 2011-12, declining from 33% in 2005, according to national sample survey report (2014) on employment, a rate worse than neighbouring Bangladesh (29%), Nepal (52%) and Sri Lanka (34%).

However, this decline is more marked for rural women, according to data from the ministry of statistics and program implementation's National Sample Survey (NSS), 2014.

Because there are not enough formal sector jobs available in rural areas, MGNREGS, a labour demand-driven

program, is limited to providing only 100 days of paid labour on public works projects per year. The few paid, formal jobs available, besides MGNREGS, tend to go to men and women with degrees, leaving women educated till the secondary school level in limbo—with skills that qualify them for non-agricultural work, but with few such jobs available, according to a 2018 study by the University of Maryland.

This lack of formal jobs, coupled with the shrinking availability of agricultural work, has led to declining numbers of women in the rural workforce.

Labour force participation rate (LFPR) is a measure of the number of persons in the labour force per 1,000 persons. The NSS data recording the change in female

LFPR in rural and urban areas over 18 years to 2011 show that the female LFPR has declined in both.

However, a closer look at the NSS data shows that the decline is steeper in rural areas. Whereas female LFPR in urban areas has declined from 165 per 1,000 in 1993 to 155 in 2011, in rural areas, the female LFPR has fallen from 330 to 253 over the same period.

Moreover, the decline in labour force participation among rural women is also higher among the lower income sections. This trend showcases the increasing relevance of the microfinance sector in India and its growth opportunities to transform rural women into economy contributors.

## Women contribution

Gender inequality is not only a pressing moral and social issue but also a critical economic challenge.

According to a McKinsey Global Institute report, 'The Power of Parity: How Advancing Women's Equality Can add \$12 Trillion to global growth', India could add US\$700 billion of additional GDP in 2025, boosting the annual GDP growth by 1.4 percentage points.

According to a Harvard Business Review study, women in emerging markets reinvest 90% of their earning into "human resources"— their families' education, health, and nutrition — compared to only 30 to 40% of earnings by men.

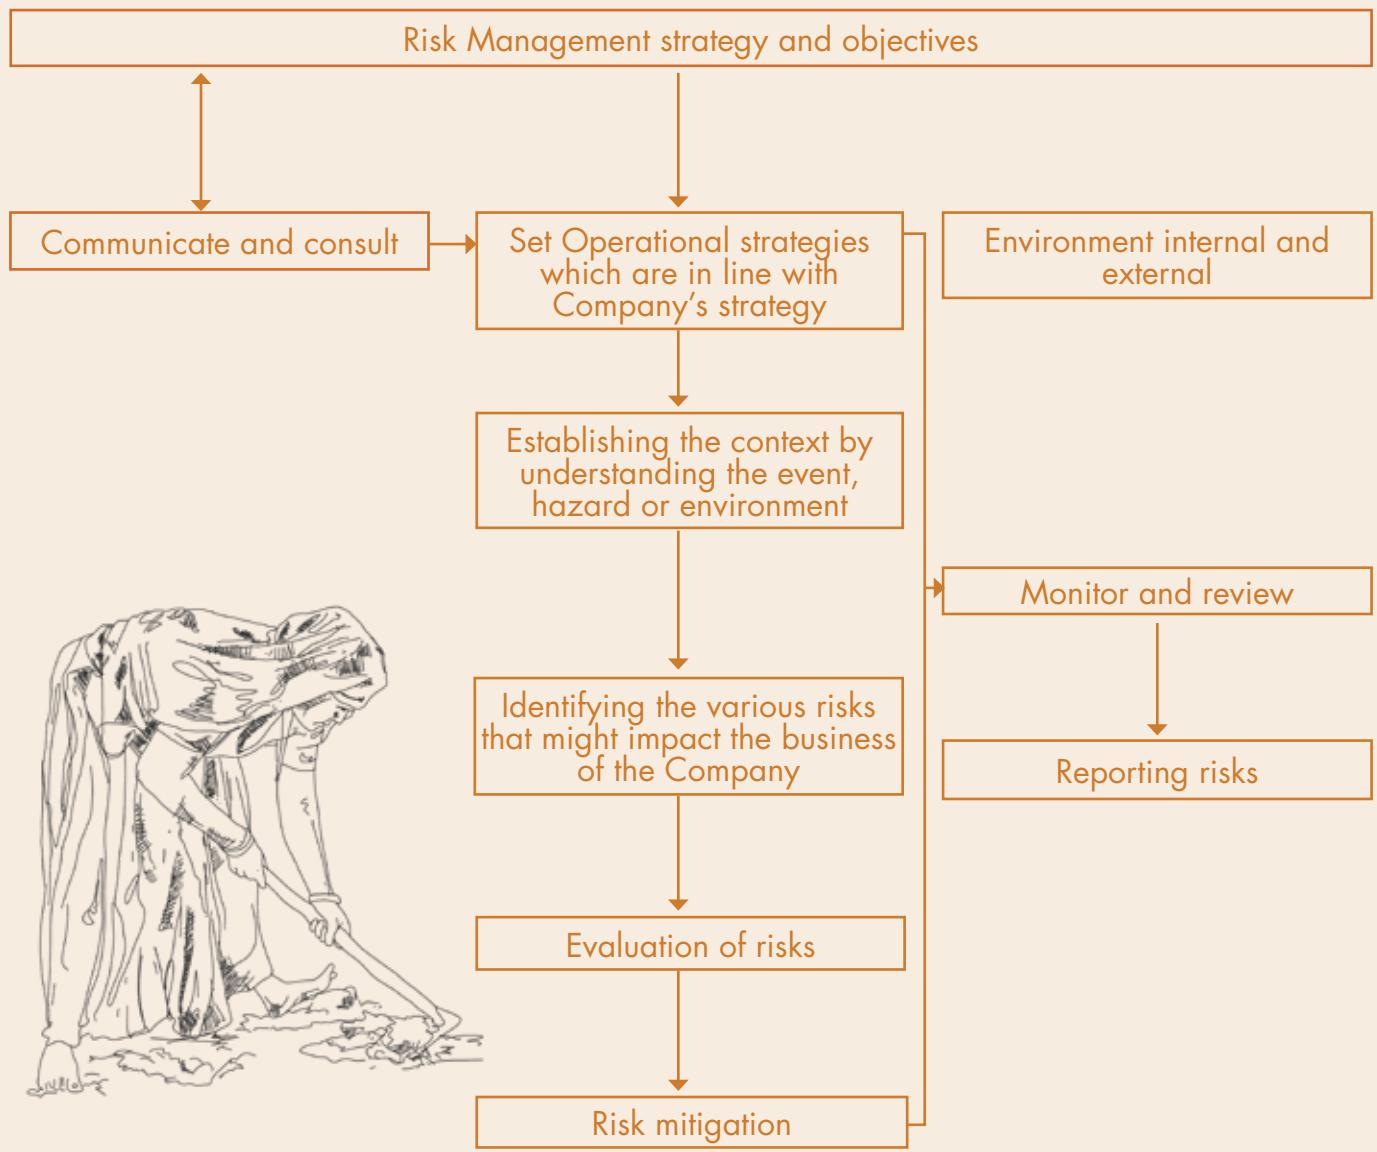

# Managing external vagaries

Risk management at Fusion is an integral part of the business model, focusing on making the business model emerge stronger and ensuring that profitable business growth becomes sustainable.

The Company has adopted a comprehensive and integrated risk appraisal, mitigation, and management process. The multi-layered risk management framework involves all key

managers of the Company to engage in the risk management process of the Company actively.

## Layered Approach to Risk Management

The principal risks which could impact the Company going forward include the following:

## Regulatory risk

People-centric government announcements, such as loan waivers, etc., could affect the Company's business.

**Mitigation:** These kinds of announcements impact the microfinance industry as a whole, including Fusion. As proactive redressal, the Company's senior management interacts with sectoral opinion influencers and decision makers at multiple forums to explain the damage these waivers and other announcements may cause the sector and the economy as a whole. These efforts have yielded considerable benefits to the Company.

## Liquidity risk

Expanding presence and consequent increasing costs could impact business profitability.

**Mitigation:** Growing volumes will drive economies of scale – this will help in absorbing fixed costs better. Moreover, the Company is investing in digitising its systems and processes which will not only improve process and system accuracy; it will also result in better productivity leading to optimising costs. Further, the Company's thrust on the Lean Six Sigma drive is resulting in significant cost and time savings, which make a heartening contribution to improving business profitability.

## Information Security risk

Increasing reliance on IT solutions as a critical business imperative makes the organisation's functioning, vulnerable to a cybersecurity threat.

**Mitigation:** As a proactive organisation, the Company has invested in the requisite solutions for securing its systems, architecture and data from external threats. In addition, it has institutionalised adequate and appropriate mitigation strategies that prevent leakage of vital data from within. They include:

- Maintained a flexible Identity and Access Management system that is capable of managing the vast heterogeneity of the Fusion community. It provides authentication and authorisation services to the enterprise and departmental IT solutions.
- Structured a tiered security architecture that provides the ability to separate resources based on their data, business criticality, and function. Appropriate controls have been created within each level to address the risks to the resources in that tier.
- Conduct workshops on information security awareness training, which serves to inform employees of their responsibilities for protecting the information in their care.
- Conduct periodic Vulnerability Assessment and Penetration Testing of IT infrastructure and systems by our Information Security Manager and yearly audit/review by a third party Information Security experts

## Asset-liability mismatch

An asset-liability mismatch could lead to cash flow disruption in the short-term and could take the Company into a debt-trap over the medium-term.

**Mitigation:** This Company's business model adequately addresses this risk. As a practice, the Company collects about 50% of the receivables in the first 12 months of disbursements and the balance in the next 12 months. The funding received by the Company has a larger repayment cycle which ensures that assets are always higher than liabilities. Moreover, the Company's astute fund and treasury management have only strengthened organisational liquidity with every passing year.

## Asset quality risk

The overleverage of customers from multiple microfinance companies could impact collections and lead to greater provisioning.

**Mitigation:** This is a reality that is fast emerging as a significant risk for the

microfinance sector. The Company has taken essential steps that will help in retaining asset quality and ensuring collection from its client

**One,** the Company has enrolled with multiple credit bureaus and integrated them with their systems to facilitate in checking the creditworthiness of clients while evaluating their loan applications.

**Two,** the Company is developing multiple IT-based solutions that will provide deep insights about loan portfolio (region-wise, district-wise, branch-wise and customer-wise) across parameters, throw up alerts for probable delinquencies, and facilitate in studying customer behaviour.

These initiatives should facilitate in strengthening the quality of the Company's asset portfolio.

## Management team risk

Widening and increasing business operations would mandate a broad-basing of the management team for seamless business management.

**Mitigation:** At Fusion, the Company has a reliable Management team which has rich experience in their area of operations and have been with the Company for quite some time. As a first step towards rewarding their patient and passionate efforts in building the business, the Company has graduated its team into co-owners through its two ESOP schemes – strengthening their bond with the organisation. Further, the Company is working on developing its next generation of leaders who will take the Company to the next orbit.

The team organised street plays for spreading the importance of a healthy body and mind.

## Wheelchair donation:

To commemorate the International day of persons with disabilities, the Company donated wheelchairs to physically disabled women, men and children. Close to 40 people across eight states received these mobility solutions..

## Contribution:

The Company made a healthy financial contribution to the Indian Cancer Society through the HDFC Charity Fund for Cancer Care this year as well for the treatment of cancer patients who cannot afford their treatment.

## Financial literacy

The Company conducted more than 30 financial literacy programs for rural communities including client in 10 states. The programs, attended by more than 6,000 people, provided

awareness on financial management, how to make household budget, identifying necessary and unnecessary expenses. They were also apprised about related beneficial government schemes.

Fusion continued to provide educational sponsorship to underprivileged girls studying in Udbhav school, Hyderabad for the second consecutive year.

## WASH (Water, sanitation and Hygiene)

Under project JAL, Fusion installed a water purifier and water tank at a Government primary school in Uttarakhand. This provided a sustained supply of clean and healthy

drinking water to the students and teachers who were drinking high TDS level water which was harmful for their health.

Fusion constructed toilets in Government schools for girls in Odisha, Uttar Pradesh and Madhya Pradesh to promote hygiene and sanitation among the community. The program supports the 'Swachh Bharat Abhiyan' initiative of the Central Government.

The Company organised awareness programs at the inauguration of the newly constructed toilets to sensitise students, teachers and community people on the importance of using toilets in order to maintain hygiene. These programs were attended by the UNICEF officer, Block Development Officer, Gram Pradhan, School Principal, and other dignitaries.

## Skill development

Fusion organised skill development

programs in Jharkhand, Madhya Pradesh and Haryana.

These programs provided basic training in a number of areas namely sewing & stitching, beautician training, and food product making. Apart from the basic training, participants were trained on product packaging and market linkage. The team provided certificates to each candidate on successful completion of the program. At all the locations women have started getting orders from the local market/ neighbourhood.

## Gender inequality

Fusion has been created with the objective of eradicating gender inequality in India. It focuses on funding the dreams of the aspiring rural women. Since inception it has funded the dreams of more than a million women. In doing so, it has raised their respect in their families and in their communities.

## Environment management

On Pollution Prevention Day (December

2, 2018), more than 810 trees were planted in three villages of Laksar, Uttarakhand covering two government schools and bank of the Ganga river which is also a flood prone area. This plantation initiative will help reduce the impact of flood in three neighbouring villages.

### Daan Utsav

Fusion celebrated the 'Joy of giving week' (October 2 – 8) during which women and children living in backward areas of Odisha, Bihar and Jharkhand were distributed woollen shawls and school stationery items.

### Relief & welfare

Fusion made a meaningful contribution to help reduce the hardship faced by fellow Indians in natural disasters.

- The Company distributed relief material to flood affected household Cherukadapuram, Kochukadavu, Nadathara and Cherpu of Kerala.
- The Company provided food items, clothes and other relief material to clients residing in the Saraiya village, Bihar who lost their houses and belongings to a natural fire
- The Company provided relief materials including blankets and tarpaulin to 750 households of Pattokotai, Thanjavur and surrounding villages of Tamil Nadu affected by the Gaja Cyclone

### Other contribution

Fusion contributed to GoSports Foundation for training three athletes, Bhavani Devi, Swapna Burman and Namita Chandel

- Bhavani became the 1st Indian to win a Gold medal in the Sabre event at the Commonwealth Fencing Championship 2018
- Swapna became the 1st Indian Heptathlete to win a Gold medal in Heptathlon at the Asian Games 2018
- Namita Chandel is a Canoeist and recipient of many medals at the national level. Recently, she has won a silver in the 200m Doubles Canoe Race in the Open International Canoe Sprint Competition for the second consecutive year.

# CORPORATE GOVERNANCE REPORT

### COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Corporate Governance is more than just adherence to the statutory and regulatory requirements. It is equally about focusing on voluntary practices that underlie the highest levels of transparency & propriety.

The Company's philosophy on corporate governance oversees business strategies and ensures transparent fiscal accountability, ethical corporate behaviour and fairness to all stakeholders comprising regulators, employees, customers, vendors, investors and the society at large. Fusion has laid a strong foundation for making Corporate Governance a way of life by having a mix of persons of eminence and integrity at Board and leadership levels, including competent professionals across the organization and putting in place best systems, processes and technology.

Over the years, we have strengthened governance practices. These practices define the way business is conducted and value is generated. Stakeholders' interests are taken into account, before making any business decision. We believe, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. It is an upward-moving target that we collectively strive towards achieving.

A detailed report on the Company's commitment at adopting good Corporate Governance Practices is shared below -

### BOARD OF DIRECTORS ("BOARD"):

The Board critically evaluates the Company's strategic direction, management policies and their effectiveness. The agenda for the Board reviews include strategic review from each of the Committees, a detailed analysis and review of annual strategic and operating plans, capital allocation and budgets. Additionally, the Board reviews related party transactions, possible risks and risk mitigation measures, financial reports and business reports. Frequent and detailed interaction sets the agenda and provides the strategic roadmap for the Company's future growth.

The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic direction to the Company. As trustees, the Board has fiduciary responsibility to ensure that the Company has clear goals aligned to shareholder value and its growth. The Board exercises its duty with care, skill and diligence and exercises independent judgement. It sets strategic goals and seeks accountability for their fulfilment. It also directs and exercises appropriate control to ensure that the Company is managed in a manner that fulfills stakeholder's aspirations and societal expectations.

### COMPOSITION OF THE BOARD

As on March 31, 2019, the board had 7 members, 1 of whom was executive director, 6 non-executive directors out of which

3 are independent directors including 1 independent woman director.

The maximum tenure of independent directors is in compliance with the Act. All the Independent Directors have confirmed that they meet the criteria of independence as mentioned under Section 149(6) of the Act.

None of the Non-Executive Directors held any equity shares or convertible instruments of the Company during the financial year ended March 31, 2019.

### BOARD MEETINGS & ATTENDANCE

The Board of Directors is the apex body constituted by shareholders for overseeing the Company's overall functioning. The Board provides and evaluates the Company's strategic direction, management policies and their effectiveness, and ensures that shareholders' long-term interests are being served. The Company's internal guidelines for Board / Committee meetings facilitate decision-making process at its meetings in an informed and efficient manner.

The Company decide about the Board meeting dates in advance in consultation with Board of Directors and the respective committee members. Once approved, the schedule of the Board meetings and Committee meetings is communicated to the Directors to enable them to attend the meetings.

The Company Secretary of the Company draft the agenda for each meeting, along with explanatory notes, in consultation with the MD & CEO, and distribute these in advance to the directors & respective committee members. Every member of the board/committee can suggest the inclusion of additional items in the agenda. The Board meets at least once a quarter to review the quarterly results and other items on the agenda, and also on the occasion of the AGM. Additional meetings are held when necessary. The board has unrestricted access to all Company-related information, including that of our employees. At Board meetings, managers and representatives who can provide additional insights into the items being discussed are invited.

As a practice, the Company Secretary communicates all important decisions taken by the Board Members/ Committee Members to the functional head of the concerned departments. An Action Taken Report (ATR) on the decisions taken and matters discussed in the previous meeting is outlined and placed in the succeeding meeting of the Board/Board Committee for their consideration/information and noting.

There are no inter-se relationships between the Board of Directors of the Company.

During the Financial Year 2018-19, the board met 6 (Six) times i.e. on May 24, 2018, August 14, 2018, October 04, 2018, November 14, 2018, December 05, 2018, and February 18, 2019. # Management Discussion and Analysis Report

## ECONOMIC OVERVIEW

Fiscal 2018-19 belied expectations. For a period, which started out with the promise of robust economic growth (GDP growth in Q1 was 8%) ended on a sub-optimal note as India's GDP growth slid to 7% in 2018-19 against 7.2% in 2017-18 and considerably lower than the 7.4% estimate set out by Government agencies at the year-start.

This was primarily owing to the lacklustre performance of the economy in the second half of the fiscal (Oct'18-Mar'19) – GDP growth under 7%. This was mainly due to poor performance of farm, mining and manufacturing sectors.

Economic performance was also hampered by the NBFC crisis which throttled liquidity in the system. This hampered the progress of large ticket projects which are essential for economic progress.

And there is a larger concern. India could be heading towards an economic slowdown. The Ministry of Finance in its Monthly Economic Report of March 2019 warned that India's economy appears to have slowed down slightly in 2018-19. The proximate factors responsible for this slowdown include declining growth of private consumption, tepid increase in fixed investment, and muted exports. But this fear could be a thing of the past as the new and significantly empowered Government provides optimism for a better year ahead.

**Going forward:** The International Monetary Fund (IMF) cut India's GDP growth forecast for 2019-20. They project growth to pick up to 7.3% in 2019 (2019-20) and 7.5% in 2020, supported by the continued recovery of investment and robust consumption amid a more expansionary stance of monetary policy and some expected impetus from fiscal policy.

In addition, ADB and RBI have cut their 2019-20 growth projection for India to 7.2% from 7.4% earlier, owing to growing risks to the global economic growth as well as weakening domestic investment activity.

## INDUSTRY STRUCTURE AND DEVELOPMENTS

Microfinance as the name suggests focuses on working with the impoverished in urban and rural India with the sole aim of uplifting the country. It was a good year for the microfinance industry despite the volatility in the external environment owing to the NBFC crisis and the upcoming elections.

Disbursements jumped by 63.26% over the previous year as the client portfolio increased. As a result, the Gross Asset under Management stood at ₹2,641.39 crore as on March 31, 2019 against ₹1,555.60 crore as on March 31, 2018. What was heartening is that the industry was back on track in terms of operational efficiency as Portfolio at Risk (>30) declined from 3.90% in 2017-18 to 1.78% in 2018-19.

## COMPANY OVERVIEW

Fusion Microfinance Private Limited is a registered NBFC – MFI which operates in a Joint Liability Group lending model of Grameen. Established in 2010, the Company focuses on reaching out to unbanked and providing financial services to women entrepreneurs – 100% of its client comprise women living in rural and semi-urban areas. The Company's responsibilities extend beyond financial support to educating clients on financial literacy.

Headquartered in New Delhi, the Company's operations are spread across 18 Indian states and managed by an experienced and enthusiastic team of 4000+ members with an average age of 27.5 years.

## OPERATIONAL PERFORMANCE

The Company registered a stellar performance in 2018-19. From an operational perspective, the Company has taken important strides which promise to make its profitable growth sustainable.

The Company extended its footprint across 4 new states, thereby establishing its presence in 18 Indian states. It increased its branch network by 147 branches which has helped in strengthening its customer base to 1,510,823 as on March 31, 2019.

Further, the Company has focused on deploying digital solutions for its business processes for improving accuracy and productivity. While cashless disbursements have increased significantly, digital solutions are also being developed for strengthening internal processes.

The Company launched the mShakti, mobile app for its field force which has transformed field operations, improving the customer on-boarding process, reducing the TAT to fund disbursement and facilitate better cash collections.

The Company's focus on Lean Six Sigma and Project Management methodology has enabled it to improve internal processes and optimize operational costs for the Company.

## OUTLOOK FOR 2019-20

The current year holds significant promise for the sector and the Company.

From a sectoral perspective, the financial services spaces seem to have moved beyond the NBFC crisis with more stringent controls in place to ensure its smooth functioning. Moreover, the stability at the Central Centre indicates continuing of the existing policies and new announcements which hold promise for improvement.

From the Company's standpoint, the expansive footprint, the entrenched network, the brand respect for clean and honest operations, thrust on accurate operations and seamless integration, and the liquidity at the close of the fiscal provide considerable optimism for a better and even more successful performance in the current year.

## INTERNAL CONTROL AND ITS ADEQUACY

At Fusion, the internal control procedures include internal financial controls, ensuring compliance with various policies, practices and statutes considering the organization's growth and complexity of operations. The framework constantly monitors and assesses all aspects of risks associated with current activities and corporate profile, including scientific and development risks, partner interest risks, commercial and financial risks.

Fusion has built the management reporting and internal control systems in place, that enable it to monitor performance, strategy, operations, business environment, procedures, funding, risk and internal control. The internal auditors carry out extensive audits throughout the year across all locations penetrating all functional areas and submit their reports to the Audit Committee.

## RISK AND CONCERNs

Risk management at Fusion is an integral part of the business model, focusing on making the business model emerge stronger and ensuring that profitable business growth becomes sustainable.

The Company has adopted a comprehensive and integrated risk appraisal, mitigation and management process. The risk management framework goes beyond traditional boundaries and seeks to involve all key managers of the Company.

The Board of Directors stands at the apex of the governance, supporting the risk management framework. The Board oversees the implementation of the Risk Management Plan principally through the Board Risk Management Committee (BRMC).

The Board comprises of eminent directors with rich expertise and experience in the financial services space and are well versed with the possible risks which could adversely impact the Company's performance

The Company has put in adequate checks by complying with the regulations framed by RBI which are applicable to the Company. It also has an effective risk management department which is bound to work in an effective manner in order to mitigate risks.

Whereas each department focuses on its specific area of activity, the risk management department operates in cooperation with all other departments, utilizing all significant information sourced by the other departments in order to manage risks.

The Company is regulated by Reserve Bank of India which has stipulated certain regulations to be followed by each and every NBFC.

## HUMAN RESOURCE

At Fusion, people power is the bedrock for its success. For the intellectual capital resident within the organisation have formulated the contours of its differentiated business strategy and have played a defining role in transforming business strategies into on-ground realities.

It also strives to retain its experienced team rich in domain expertise through people centric policies.

The Company's knowledge building comprises of a detailed learning and development calendar comprising multi-discipline training programs (technical knowledge and soft skills). This calendar captures the development needs of employees through performance appraisals and business needs based on sectoral trends. The Company is also working towards creating web based modules to extend its Learning and Development commitment across all branches.

The company also has a strong culture of celebrations. All occasions are celebrated with great zeal and excitement at the branches.

# Independent Auditors' Report

## To the Members of

Fusion Microfinance Private Limited

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of Fusion Microfinance Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2019, the statement of profit and loss, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (collectively referred to as the 'financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and profit and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How the matter was addressed in our audit
Provision on loan portfolio including managed and securitized portfolio	
Charge to the statement of profit and loss (including write off): INR 263,405,305 for year ended 31 March 2019	
Provision as at balance sheet date: INR 483,552,365 as at 31 March 2019	
Refer to the accounting policies in "Note 1 (e) to the financial statements: Classification of loan portfolio and provisioning policy" and "Note 2.4, 2.7, 2.9, 2.19 and 2.23 to the financial statements	
The determination of provisions for loan portfolio including managed and securitized portfolio is inherently judgmental and relies on management's best estimate, including compliance with the Reserve Bank of India guidelines with regard to the Asset Classification & Provisioning.	<p>We performed the following key audit procedures:</p> <ul style="list-style-type: none"><li>Performed process walkthroughs to identify the key controls used in the provision for loan portfolio process.</li><li>Assessed the design and implementation of controls in respect of the Company's provision for loan portfolio process such as the timely recognition of provision, the completeness and accuracy of reports used in the provision process and management review processes over the calculation of provision.</li><li>Performed test of details, on a sample basis, of calculation of provisions as at 31 March 2019 to assess the completeness, accuracy and relevance of data and ensure that the same is in compliance with the RBI guidelines with regard to the Asset Classification &amp; Provisioning, prescribed and Company's accounting policy.</li><li>Assessed the appropriateness of the disclosure in the financial statements.</li></ul>
Estimates, by their nature, give rise to a higher risk of material misstatement due to error or fraud. Given the size of loan portfolio relative to the balance sheet and the impact of provision for loan losses on the financial statements, we have considered this as a key audit matter.	

## Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

## Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about

whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The balance sheet, the statement of profit and loss and the statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- a) The Company has disclosed the impact of pending litigations as at 31 March 2019 on its financial position in its financial statements - Refer Note 2.40 to the financial statements;
- b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
- d) The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019.

(C) With respect to the matter to be included in the Auditors' Report under Section 197(16):

The provisions of Section 197 read with Schedule V to the Act are applicable only to the public companies. Accordingly, the requirement under Section 197(16) of the Act are not applicable to the Company.

- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the Register maintained under Section 189 of the Act. Hence, the provisions of Clause 3(iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not given loans, investments, guarantees and security covered under Section 185 and 186 of the Act. Therefore, paragraph 3(iv) of the Order is not applicable to the Company.
- v. The Company has not accepted any deposits from the public.
- vi. The Central Government of India has not prescribed the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the services rendered by the Company.
- vii. (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' state insurance, Income-tax, Goods and services tax, Cess and other material statutory dues have generally been regularly deposited by the Company with the appropriate authorities. The Company did not have any dues on account of duty of Customs and duty of Excise.
- According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' state insurance, Income-tax, Goods and services tax, Cess and other material statutory dues were in arrears as at 31 March 2019 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of Income tax, Goods and services tax, duty of Customs, duty of Excise and Value added tax, which have not been deposited with appropriate authorities on account of any dispute.
- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or dues to debenture holders as at the balance sheet date. The Company did not have any loans or borrowings payable to Government.
- ix. The Company has not raised any monies by way of initial public offer or further public offer. In our opinion, and according to the information and explanations given to us, monies raised by way of term loans have been applied, on an overall basis, for the purposes for which they were obtained though funds which were drawn towards the end of reporting period were invested in liquid assets payable on demand on temporary basis.
- x. ## The Annexure B to the Independent Auditors' report of even date to the Members of the Company on the financial statements for the year ended 31 March 2019

### Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 1(A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

### Opinion

We have audited the internal financial controls with reference to financial statements of Fusion Microfinance Private Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls

with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

### Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Company overview

Fusion Microfinance Private Limited ('the Company') was incorporated on 5 September 1994 under the Companies Act, 1956. The Company was registered as a Non-Banking Financial (Non – Deposit Accepting or Holding) Company ('NBFC- ND') under section 45-IA of the Reserve Bank of India Act, 1934 with effect from 19 May 2010. The Company got converted to Non-Banking Financial Company-Microfinance Institution ('NBFC-MFI') with effect from 28 January 2014. The Company listed its Non-Convertible Debentures ('NCDs') in Bombay Stock Exchange, India.

It is engaged in microfinance lending activities, providing financial services to poor women in India who are organized as Joint Liability Groups ('JLGs'). The Company provides small value collateral free loans up to ₹60,000. All financial transactions are conducted in the group meetings organized near the habitats of the borrowers.

In addition to the core business of providing micro-credit, the Company uses its distribution channel to provide other financial products and services to the members primarily relate to providing of loans to the members for the purchase of certain productivity enhancing products such as mobile handsets, bicycle.

## 1. Significant accounting policies

### a) Basis of preparation of financial statements

The financial statements have been prepared and presented under the historical cost convention on the accrual basis of accounting and comply in all material aspects with the Accounting Standards (GAAP) specified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, other accounting principles generally accepted in India and the Reserve Bank of India ('RBI') guidelines to the extent applicable to a Systemically Important Non-Deposit taking Non-Banking Finance Company ('NBFC-ND-SI') and Non-Banking Financial Company - Microfinance Institution ('NBFC-MFI'). The financial statements are presented in Indian ₹ rounded off to the nearest rupee.

### b) Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

### c) Current – non-current classification

All assets and liabilities are classified into current and non-current.

#### Assets

An asset is classified as current when it satisfies any of the following criteria:

- i. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is expected to be realised within 12 months after the reporting date; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for atleast 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

#### Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- i. it is expected to be settled in the Company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is due to be settled within 12 months after the reporting date; or
- iv. the Company does not have an unconditional right to defer settlement of the liability for atleast 12 months after the reporting date.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.

#### Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months.

### d) Revenue recognition

- i. Interest income on loan portfolio is recognised on accrual basis taking into account the amount outstanding and rate applicable except in the case of non-performing assets (NPA's) where it is recognised, upon realisation, as per the prudential norms of RBI.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended March 31, 2019

(All amounts in Indian rupees unless otherwise stated)

- ii. Income from interest strip (excess interest spread) in securitisation is recognised in the statement of profit and loss account on realisation basis.
- iii. Income from business correspondent activity is recognised on accrual basis as per the terms of arrangement entered into with the client bank. Revenue from Business Correspondent activities to the extent of services rendered but yet to be billed are treated as 'Unbilled revenue' and are disclosed under other current assets.
- iv. Loan processing fee received upfront are considered to be accrued at the time of entering into a binding agreement upon its receipt and are recognised as revenue immediately.
- v. Interest on term deposits has been accrued on the time proportion basis, using the underlying interest rate.
- vi. Dividend income is accounted when the right to receive the dividend is established.

## e) Classification of loan portfolio and provisioning policy

Loan portfolio is classified and provision is made in accordance with the Non-Banking Financial Company – Microfinance Institutions (NBFC-MFIs) Directions issued by Reserve Bank of India as mentioned below:

### Asset classification norms:

- i. Standard asset means the asset in respect of which, no default in repayment of principal or payment of interest is perceived and which does not disclose any problem nor carry more than normal risk attached to the business.
- ii. Non-performing asset means an asset for which, interest/principal payment has remained overdue for a period of 90 days or more

### Provisioning norms:

The aggregate loan provision shall not be less than the higher of:

- i. 1% of the outstanding loan portfolio, or
- ii. 50% of the aggregate loan installments which are overdue for more than 90 days and less than 180 days and 100% of the aggregate loan installments which are overdue for 180 days or more.

Based on the management assessment and considering various factors, the Company has accrued 100% provision on identified non-performing portfolio and business correspondence portfolio along with 0.50 % on standard portfolio (GLP), which is in higher than provision required as per RBI provisioning norms.

Provision on securitized / managed portfolio is made as per the Company's provisioning policy for portfolio loans mentioned above, if any and subject to the maximum guarantee given in respect of these arrangements.

All overdue loans including loans where the tenure of the loan is completed and in the opinion of the management any amount is not recoverable, are fully provided for / written off.t.

## f) Fixed assets and depreciation/amortisation

### Tangible fixed assets

Tangible fixed assets are carried at cost of acquisition less accumulated depreciation. The cost of tangible fixed assets comprises the purchase price and directly attributable costs of bringing the assets to their working condition for their intended use.

Subsequent expenditures related to an item of tangible fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. Tangible fixed assets under construction and tangible fixed assets acquired but not ready for their intended use are disclosed as capital work-in-progress.

The management has assessed the estimated useful life of the tangible fixed assets other than leasehold improvements as specified in Schedule II to the Companies Act, 2013 as in the opinion of the management the same reflects the estimated useful life. Depreciation is provided under written down value method. Depreciation is calculated on pro rata basis from the date on which the asset is ready for use or till the date the asset is sold or disposed.

Leasehold improvements are amortised on straight line method over the primary period of the lease or the estimated useful life of the assets, whichever is lower.

Losses arising from retirement or gains or losses arising from disposal of fixed assets are recognised in the statement of profit and loss.

### Intangible assets

Intangible assets are carried at cost of acquisition less amortization. Intangible assets that are acquired by the Company are measured initially at cost. Subsequent expenditure is capitalised only when it increases the future economic benefits from the specific asset to which it relates.

Intangible assets are amortized in the statement of profit and loss over their estimated useful lives from the date they are available for use based on the expected pattern of consumption of economic benefits of the asset. Intangible assets are being amortised over a period of 3 to 6 years using written down value method.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended March 31, 2019

(All amounts in Indian rupees unless otherwise stated)

## g) Borrowing costs

Borrowing costs are charged in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to acquisition of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Other borrowing costs are recognised as an expense in the year in which they are incurred.

## h) Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of an asset is the greater of its value in use and its net selling price. If such recoverable amount of the assets is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of amortized historical cost.

## i) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.

Long-term investments are carried at cost less any other than temporary diminution in value. Current investments are valued at lower of cost and fair value determined on individual investment basis.

## j) Retirement and other employee benefits

### Defined contribution plans

The Company makes specified monthly contribution towards employee provident fund to Government administered provident fund scheme, which is a defined contribution scheme. The Company's contribution is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

### Defined benefit plan

The Company provides for gratuity, a defined benefit retirement plan covering eligible employees. In the current year, gratuity is covered under a scheme

administered by the Kotak Life Insurance Company (Kotak Group Gratuity plan) and the contributions made by the Company to the scheme are recognised in Statement of Profit and Loss. The liability recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of plan assets. The calculation of the Company's obligation under the plan is performed annually by a qualified independent actuary using the projected unit credit method. Actuarial gains and losses arising during the year are immediately recognised in the statement of profit and loss in the year which they arise.

### Compensated absences

Compensated absences, is a long-term employee benefit, and accrued based on an actuarial valuation done as per projected unit credit method as at the Balance Sheet date, carried out by an independent actuary.

Actuarial gains and losses arising during the year are immediately recognised in the statement of profit and loss.

### Employee stock option scheme ('ESOP')

The Company has formulated an Employees Stock Option Schemes to be administered through a Trust. The scheme provides that subject to continued employment with the Company, employees of the Company are granted an option to acquire equity shares of the Company that may be exercised within a specified period. The Company follows the intrinsic value method for computing the compensation cost for all options granted. Measurement and disclosure of the employee share-based payment Schemes are done in accordance with the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India.

## k) Earnings per share ("EPS")

Basic earnings per share computed by dividing the net profit after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, net profit after tax for the year and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed to have been converted as of the beginning of the year, unless they have been issued at a later date.

## l) Income tax

Income tax expense comprises current tax and deferred tax.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended March 31, 2019

(All amounts in Indian rupees unless otherwise stated)

## Current tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961, enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

## Deferred tax

Deferred tax charge or benefit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or benefit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each balance sheet date and written-down or written-up to reflect the amount that is reasonably/virtually certain to be realised.

## m) Provisions and contingent liabilities

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may,

but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

A contract is considered as onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

## n) Leases

Leases that do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are recognised in the statement of profit and loss on a straight-line basis over the lease period unless another systematic basis is more representative of the time pattern of the benefit

## o) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, investing and financing activities of the Company are segregated.

## p) Foreign currency transactions

All transactions in foreign currency are recognised at the exchange rate prevailing on the date of the transaction.
